AQRP Monthly Technical Report

PROJECT TITLE	Ozone Measurements and Platform Emission Factors in the Gulf of Mexico	PROJECT#	20-009
PROJECT PARTICIPANTS	Aerodyne Research, Inc.	DATE SUBMITTED	08/10/2020
REPORTING PERIOD	From: July 1, 2020 To: July 31, 2020	REPORT #	2

A Financial Status Report (FSR) and Invoice will be submitted separately from each of the Project Participants reflecting charges for this Reporting Period. I understand that the FSR and Invoice are due to the AQRP by the 15th of the month following the reporting period shown above.

Detailed Accomplishments by Task for reporting period

UNEP campaign leadership has continued to seek partners for the portion of the campaign requiring an offshore platform. Conversations with two additional organizations involved in the offshore industry happened in the past month, in a continued effort to find willing industry partners.

A rack containing computer and networking equipment, which was installed on the vessel in 2018 campaign, was turned on as part of a separate project. All computer equipment is functional and the networking setup is functional.

Preliminary Analysis

There is no preliminary analysis to report.

Data Collected

There is no data collected.

Identify Any Problems or Issues Encountered and Proposed Solutions or Adjustments

There are no new problems or issues. Finding a willing industry partner to provide access to an offshore platform remains the central issue in campaign planning. Campaign leadership continues to explore contacts in the offshore industry.

Goals and Anticipated Issues for the Succeeding Reporting Period

In the next reporting period, we plan to continue conversations with campaign leadership and vessel operators about campaign timing and details.

The ozone instrument that will be used for this campaign will be installed in the Aerodyne mobile laboratory as part of a separate campaign. The instrument's status will be monitored and any issues identified.

Detailed Analysis of the Progress of the Task Order to Date

The progress in the first several months of this project will be limited due to the timing of the
